Rules & Regulations

1. All students must enter the correct information in the log book
2. All the entries in the project log book must be verified by the concerned project guide.
3. Student must report to their respective guide on project day as per the time table.
4. Activity planned should be completed as per the schedule only.
5. Students must submit soft and hard copies of the Synopsis, Partial Project Report in Term-I & Final Project Report in Term-II as per the prescribed format.
6. Students must submit Project Laboratory Assignments in Term-I & Term- II as per the prescribed syllabus.
7. Students must submit and preferably publish at-least one technical paper in the conferences/workshops in IITs, Central Universities or UoP Conferences or equivalent International Conferences Sponsored by IEEE/ACM in Term-I & Term-II.
8. Students must participate in at least one project competition organized by any Engineering College to become eligible to appear for final project exam.
9. Students must attach all the published papers and Project Competition Certificates at the end of Log book.
10. Students must bring the Log book at the time of meeting with guide, project reviews and examination.
11. Changes, if any, must be countersigned by the concerned project guide.
12. For any queries, please contact to your project guide/ project coordinator.
13. This log book must be submitted to Coordinator at the time of final submission of the project.

Undertaking by Students

We, the students of B. E. _____ batch ____ - ____ hereby assure that we will follow all the rules and regulations related to the BE project activity assigned by Savitribai Phule Pune University for the academic year _____ - _____ .

The Project entitled –

will be fully designed/developed by us. Any part of the project's hardware & software will not be purchased from outside parties for direct use. If such things are found by examiner, we will be responsible for further consequences.

BE PROJECT (TERM - I) REVIEW I

The group members are expected to present their work undertaken during the semester. Journey of development has to be rationally presented with thorough literature survey.

1 Project Review-I: Problem Statement, Motivation, objectives and Literature Review

Student is expected to deliver presentation covering Problem Statement, Motivation, objectives and Literature Review.

Sr. No.	Question	Remark	Grade	Sign of Guide
1)	Does the statement gives clear identification about what your project will accomplish?			
2)	Is the statement short and concise?			
3)	Can a person who is not familiar with the project understand scope of the project by reading the project problem statement?			
4)	The project's objectives of study (what product, process, resource etc.) are being addressed?			
5)	Is similar type of methodology / model used for existing work?			
6)	Is the studied literature sufficient to decide scope of the project?			
7)	Are the objectives set will help to achieve goal of the project?			
8)	Does Research gap identified will lead to find motivation of project?			
9)	Does your project contribute to our society by any means and will lead to find motivation?			
10)	Are the objectives clearly and unambiguously listed?			
Remark and Suggestions:

BE PROJECT (TERM - I) REVIEW II

Project Review-II: Feasibility and Scope

Student is expected to deliver presentation covering Feasibility and Scope

Sr. No.	Question	Remark	Grade	Sign of Guide
1)	Is the project's view point is understood?			
2)	Is the project goal statement is in alignment with the sponsoring organization's business goal and mission?			
3)	Who is the project's end user?			
4)	What is the projected cost of producing a product?			
5)	Is project achievable in specified (Time, Cost Budget)?			
6)	Are the requirements within the scope of the project?			
7)	Is the scope properly defined?			
8)	Does the problem statement clearly define scope of the project?			
9)	Do the project requirements fit into available software and hardware?			
10)	Whether the milestones are stated completely and project timeline is given?			
11)	Whether risks like technical risks, Operational risks, schedule risks, business risks are identified correctly or not?			
12)	Whether Risk prioritization is done properly or not and any back up plan is there or not?			
Remark and Suggestions:				

Name and Sign of Reviewers:

BE PROJECT MOCK (TERM - I) EVALUATION: Final Review

Student is expected to deliver presentation covering Design

Sr. No.	Question	Remark	Grade	Sign of Guide
1)	Are requirement reflected in the system architecture?			
2)	Does the design support both project (product) and project goals?			
3)	Does the design address all the issues form the requirement?			
4)	Is effective modularity achieved and modules are functionally independent?			
5)	Are structural diagrams (class, Object, etc.) are well defined?			
6)	Are all class associations clearly defined and understood?(Is it cleat which classes provide which services)?			
7)	Are the classes in the class diagram clear? (What they represent in the architecture design document?)			
8)	Is inheritance appropriately used?			
9)	Are the multiplicities in the use case diagram depicted in the class diagram?			
10)	Are all objects used in sequence diagram?			
11)	Are the symbols used in all diagrams corresponding to UML standards?			
12)	Are behavioral diagrams (use case, sequence, activity, etc.) well defined and understood?			
13)	Does each case have clearly defined actors and input/ output?			
14)	Does the sequence diagram matches with class diagram?			
15)	Is aggregation/ containment (used) clearly defined and understood?			
16)	Whether State charts are capturing system's dynamic behavior correctly or not?			
17)	Related to procedural thinking whether DFDs and CFDs along with transaction and transformation flow are done correctly or not?

EXTERNAL EXAMINER FEEDBACK (TERM-I)

Project Title: _____

Date: _____

Item	Excellent	Good	Satisfactory
Q1. Are the students able to apply their knowledge of mathematics and engineering to identify, formulate, and solve complex problems through project work?			
Q2. How will you rate student's ability to design a system, analyze and interpret data to meet desired needs within realistic constraints through project work?			
Q3. To what extent do you think the students are able to innovatively think, visualize and function on multidisciplinary areas?			
Q4. To what extent do you think the students have understood professional and ethical responsibility through project work?			
Q5. Are the students able to communicate effectively in both verbal and written form?			
Q6. Are the students able to understand the impact of engineering solutions in a global, economic, environmental, and societal context?			
Q7. Indicate the extent to which students have understood project management and team work?			
Q8. To what extent do you think the students are able to use modern engineering tools along with knowledge of contemporary issues?			
Q9. How will you rate student's ability to recognize the need of engaging in life-long learning?

BE PROJECT (TERM - II) REVIEW I

The group members are expected to present their work undertaken during the semester.
Journey of development has to be rationally presented.

Project Review-I: Modeling (Model Refinement and Algorithm development)

Student is expected to deliver presentation covering Modeling

Sr. No.	Question	Remark	Grade	Sign of Guide
1)	Which software Development Process model is used? (Water fall, Incremental, RAD) How?(? at this level?)			
2)	Do you clearly identify data objects, their attributes and relationships?(All constraints fro SRS are captured or not?)			
3)	Have you clearly matched the objects with respective classes and their responsibilities?			
4)	Have you analyzed the requirements and represented them into respective models?			
5)	Can you differentiate between different system states and depict them in the form of state transition diagram?			
6)	Does the mathematical model clearly imply design of the project?			
7)	Does the mathematical model clearly states goal of project?			
8)	Does the interface between the modules properly identified?			
9)	Does any functional dependencies are identified and described?			
10)	Which architectural model does your system supports?			
11)	Whether Deployment diagram is inline with selected architecture?			
12)	Whether all components are designed properly and represented in component diagram?			
13)	Whether NP-completeness of algorithms is checked or not?

BE PROJECT (TERM - II) REVIEW II

Student is expected to deliver presentation covering Coding / Implementation

Sr. No.	Question	Date	Remark/ Grade	Sign of Guide
1)	Does the code completely and correctly implement the design?			
2)	Does the code comply with the coding standard?			
3)	Is the code well structured, consistent in style, and consistently formatted?			
4)	Are all functions in the design coded?			
5)	Does the code make use of object oriented concepts?			
6)	Does the code support granularity?			
7)	Does the language used for coding is correctly chosen as per the project need?			
8)	If any off the shelf components are used, Have you understood the functionalities of using it?			
9)	Are all comments consistent with the code?			
10)	Whether code optimization is done properly or not?(By using language features)

BE PROJECT TERM - II SUBMISSION

CHECK LIST

1. All project groups should complete the project in all respect i.e. hardware and software in stipulated time period.
2. All groups should prepare the soft copy of the project report and get the report checked from the internal guide and then print the hardcopy.
3. All groups should prepare the hard copy of the project report in the hardbound form. Each group should prepare 2 hardcopies for submission in the department + each individual group member copy.
4. Prepare the CD of the project.

It should include the following :

1. Complete demo of the project
 2. Final Project report
 3. Readme report for project execution
 4. PPT of the final presentation
 5. Software code
 6. Paper presented / published
 7. Scan copy of Certificates
 8. Scan copy of Sponsorship letter & Completion letter if applicable
